

TEMPORA

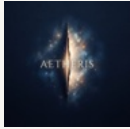

STEFANO JEFF BLUES
BOOKLET

Fifteen names for the dimensions of time.

CONCEPT

Tempora is a musical journey through the many dimensions of time, memory and consciousness. The fifteen tracks that make up the album form a sonic narrative moving between cosmic landscapes, inner reflection and visions suspended between reality and imagination. From the ethereal opening of Aetheris to the contemplative epilogue of Voidra, the listener crosses worlds in which light and darkness, movement and stillness, memory and rebirth coexist in constant balance. Ambient atmospheres, progressive overtones, evocative melodies and moments of deep introspection intertwine along a path that explores time not as a simple measure of events, but as an emotional and spiritual experience. Each track represents a stage on a road toward the unknown, turning the musical journey into a search for meaning and awareness. Tempora is a visionary work that invites contemplation and discovery, reminding us that every ending always coincides with a new beginning.

TRACKLIST

01 AETHERIS

The realm of the ether, the threshold between the material and the cosmic world.

It opens the album like a door onto the unknown. Ethereal atmospheres and cosmic overtones lead the listener into a suspended space where time seems to lose substance. A majestic, contemplative introduction.

02 AIONIS

Eternal time, without beginning or end.

A journey through eternity, where past, present and future coexist in the same instant. Elegant and deep, it widens the horizon opened by Aetheris.

03 CHRONYX

The mechanism of time.

Time becomes a living, pulsing force. Dynamic and magnetic, the track evokes cosmic cycles in constant motion and stands as one of the album's most energetic statements.

04 CYTHERA

A place of dream, desire and nostalgia.

A more intimate, dreamlike dimension, suspended between reality and imagination. Delicate and melancholy, it leaves the feeling of remembering a place never visited.

05 ECHOX

The echo of memory.

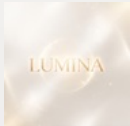

The most melodic and memorable track on the album. Echoes, memories and resonances intertwine in a composition that goes on living in the listener's mind long after it ends.

06 EXORIA

Origin, rebirth, a new beginning.

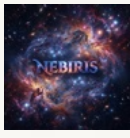

A turning point in the journey. It carries discovery, openness and a sense of evolution, turning time into an opportunity for growth and rebirth.

07 LUMINA

Light, illumination, awareness.

The luminous heart of Tempora. A moment of clarity and serenity that lights the album's path with balance, harmony and hope.

08 NEBIRIS

Cosmic nebula, the territory of the unknown.

Dark, captivating atmospheres draw the listener into the depths of the universe. Mystery becomes wonder, and the unknown an irresistible force of attraction.

09 NOCTYRA

The dimension of night.

One of the album's most contemplative moments. The dialogue between piano and synthesizers, together with continuous harmonic variation, creates an atmosphere of deep introspection.

10 RESONIA

Resonance and connection.

The most rhythmic track of the work. With echoes of techno and progressive electronica, it builds a hypnotic pulse that widens the sonic horizons of Tempora.

11 SOLYRA

Luminous energy and stellar harmony.

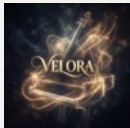

Powerful, epic and cinematic. A vast expansion of light and energy that marks one of the album's emotional peaks.

12 TEMPORA

The times, in their many dimensions.

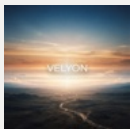

The conceptual centre of the work. Here all the album's ideas converge into a sonic synthesis that turns time into lived experience.

13 VELORA

A veil of light, a contemplative space.

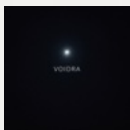

The most mystical and meditative track. Violins and piano converse in a suspended, spiritual dimension that invites inward listening.

14 VELYON

A transcendent horizon.

A sense of growth and fulfilment carries the listener toward the end of the journey. Elegant and cinematic, it looks toward the infinite.

15 VOIDRA
